## MIMPORTANT ACCOUNT INFORMATION

Effective November 7, 2012, debit or ATM card cash withdrawals made in person at non-Wells Fargo locations or in person using the cash advance feature at Wells Fargo banking locations will be subject to your daily ATM withdrawal limit.

in addition, in the Selected Terms and Conditions for Wells Fargo Business Debit Cards, Business ATM Cards and Business Deposit Cards, the section titled "Authorization Holds for Card transactions", and Business Account Agreement section titled "Authorization holds for card transactions" are changing to clarify that the Bank is permitted to place authorization holds for up to 30 days on certain debit card transactions.

Remember, an "authorization hold" is a "pending" transaction that will reduce the current available balance that you can withdraw or use to pay transactions from your account. If you do not have sufficient available funds in your account, transactions may be paid with an overdraft protection advance, paid into overdraft or returned unpaid as applicable.

The Bank is permitted to place an authorization hold on your POS Access Account for purchases for up to three (3) business days on most transactions (or for up to thirty (30) business days for certain types of debit or ATM card transactions, including but not limited to, car rental transactions, cash transactions, and international transactions), from the time of the authorization or until the transaction is paid from your POS Access Account. Please note that if the transaction is not submitted for payment by the merchant within the three (3) business days (or thirty (30) business days, as applicable), the Bank will release the authorization hold, which will increase the available balance in your POS Access Account until the transaction is submitted for payment by the merchant and finally posted to your POS Access Account.

The merchant may submit the transaction for payment after the Bank has released the authorization hold. If this happens, the Bank must honor the prior authorization and will pay the transaction from your POS Access Account.

The Ending Daily Balance does not reflect any pending withdrawals or holds on deposited funds that may have been outstanding on your account when your transactions posted. If you had insufficient available funds when a transaction posted, fees may have been assessed.

Indicates transactions that count toward Federal Reserve Board Regulation D limits. Please refer to your Account Agreement for complete details of the federally-mandated transaction limits for savings accounts.

Effective November 7, 2012, debit or ATM card cash withdrawals made in person at non-Wells Fargo locations or in person using the cash advance feature at Wells Fargo banking locations will be subject to your daily ATM withdrawal limit.

In addition, in the Selected Terms and Conditions for Wells Fargo Business Debit Cards, Business ATM Cards and Business Deposit Cards, the section titled "Authorization Holds for Card transactions", and Business Account Agreement section titled "Authorization holds for card transactions" are changing to clarify that the Bank is permitted to place authorization holds for up to 30 days on certain debit card transactions.

Remember, an "authorization hold" is a "pending" transaction that will reduce the current available balance that you can withdraw or use to pay transactions from your account. If you do not have sufficient available funds in your account, transactions may be paid with an overdraft protection advance, paid into overdraft or returned unpaid as applicable.

The Bank is permitted to place an authorization hold on your POS Access Account for purchases for up to three (3) business days on most transactions (or for up to thirty (30) business days for certain types of debit or ATM card transactions, including but not limited to, car rental transactions, cash transactions, and international transactions), from the time of the authorization or until the transaction is paid from your POS Access Account. Please note that if the transaction is not submitted for payment by the merchant within the three (3) business days (or thirty (30) business days, as applicable), the Bank will release the authorization hold, which will increase the available balance in your POS Access Account until the transaction is submitted for payment by the merchant and finally posted to your POS Access Account.

The merchant may submit the transaction for payment after the Bank has released the authorization hold. If this happens, the Bank must honor the prior authorization and will pay the transaction from your POS Access Account.

# MPORTANT ACCOUNT INFORMATION

Effective November 7, 2012, debit or ATM card cash withdrawals made in person at non-Wells Fargo locations or in person using the cash advance feature at Wells Fargo banking locations will be subject to your daily ATM withdrawal limit.

In addition, in the Selected Terms and Conditions for Wells Fargo Business Debit Cards, Business ATM Cards and Business Deposit Cards, the section titled "Authorization Holds for Card transactions", and Business Account Agreement section titled " Authorization holds for card transactions" are changing to clarify that the Bank is permitted to place authorization holds for up to 30 days on certain debit card transactions.

Remember, an "authorization hold" is a "pending" transaction that will reduce the current available balance that you can withdraw or use to pay transactions from your account. If you do not have sufficient available funds in your account, transactions may be paid with an overdraft protection advance, paid into overdraft or returned unpaid as applicable.

The Bank is permitted to place an authorization hold on your POS Access Account for purchases for up to three (3) business days on most transactions (or for up to thirty (30) business days for certain types of debit or ATM card transactions, including but not limited to, car rental transactions, cash transactions, and international transactions), from the time of the authorization or until the transaction is paid from your POS Access Account. Please note that if the transaction is not submitted for payment by the merchant within the three (3) business days (or thirty (30) business days, as applicable), the Bank will release the authorization hold, which will increase the available balance in your POS Access Account until the transaction is submitted for payment by the merchant and finally posted to your POS Access Account.

The merchant may submit the transaction for payment after the Bank has released the authorization hold. If this happens, the Bank must honor the prior authorization and will pay the transaction from your POS Access Account.
